Anindita Bhattacharjee

Data Scientist | Civil Engineer | Machine Learning | Generative AI | Deep Learning | Statistics

Stuttgart, Baden-Württemberg, Germany

Summary

I am a Data Scientist with a rich background in Civil Engineering. Over the course of my career, I developed a deep appreciation for the power of data and its ability to transform decision-making processes, from infrastructure development to complex computational analysis. This realization motivated me to pivot fully into Data Science, where I could combine my analytical skills with cutting-edge technologies to uncover insights, solve problems, and drive innovation. I am actively looking forward to the right platform to exercise my skills and improve them further. Please reach out to me in case you have an open slot for an ambitious and dedicated candidate.

Experience

Freelance
Data Scientist
November 2024 - Present (11 months)
Germany

N3XTCODER
Data Scientist
April 2025 - May 2025 (2 months)
Berlin, Germany

Led the semantic material matching using a multilingual NLP approach in Bundesinstitut für Bau-, Stadt- und Raumforschung (BBSR) Circular Construction Match challenge.
